- Dio

## PROJECTS

### AlMurafiq

[https://play.google.com/store/apps/details?id=io.krito.al\\_murafiq](https://play.google.com/store/apps/details?id=io.krito.al_murafiq)

A guide for business activities of all types that helps you access various businesses (such as contact numbers, location via Google Maps, informative directory or brochure, and images featuring the latest offers). This guide is not only on a local level but also on a global level.

### Quizzify

<https://play.google.com/store/apps/details?id=com.lmed.Quizzify>

Application for education, level determination, and exams.

### Route e-commerce

<https://github.com/Ebrahim-Elnaghy/Ecommerce>

"Route e-commerce" is a mobile application built using Flutter and Dart, aimed at creating an intuitive and user-friendly e-commerce platform. The project's goal was to develop a fully functional e-commerce app that allows users to browse, search, and purchase products from various categories.

### Movies

<https://github.com/Ebrahim-Elnaghy/MoviesApp>

The "Movies" project is a mobile application developed with Flutter and Dart, focusing on providing users with an immersive movie browsing and discovery experience. The app was designed to showcase movie information, trailers, ratings, and reviews to help users make informed decisions about their movie choices.
